UNITEK Srl is committed to fully apply the Quality policy expressed by the Management set out below.

### ***Quality Policy***

UNITEK's primary objective is continuous improvement in terms of product, service and innovation in order to increase customer satisfaction and ensure the growth of the company in the local context in which it currently operates, with an improvement in economic performance and its value.

This objective is achieved through:

- Analysis of the context in which the company operates and monitoring of market developments
- Understanding the needs and expectations of interested parties
- A process approach based on "risk-based thinking" an ever-closer collaboration with customers and suppliers for the common purpose of improving the quality of the supply.
- Continuous improvement of the effectiveness and efficiency of business processes
- The prevention of problems rather than post control and correction.
- The awareness of each employee of the importance of their contribution to the quality of the product and the service offered.
- Widespread and shared knowledge of all company processes, of the rules that govern them, of the responsibilities, of the indicators that measure them.

The company policy is also the protection of the health and safety of its employees as well as the protection of the environment.
